GigE  
AUTO IRIS

12V/2A  
Smart  
Power  
Management

- EASY SERVICE
- HIDDEN INSTALATION
- ECONOMICAL OPERATION  
(POSSIBILITY TO MEASURE  
FROM STANDING CAR)

### MAIN ADVANTAGES

- certified road speedometer
- speed measurement at approach, departure or in both directions from either standing or moving measuring car
- further car measurement method possibilities (car tracing, average speed measurement) without microwave sensors – not detectable by antiradar
- on-line data transfer to backup office
- Automatic Number Plate Recognition (ANPR) implemented
- ANPR data search function (vehicle registr database)

**TOP PREVENTIVE  
REPRESSIVE TOOL  
OF CZECH POLICE**

**DIGITAL  
CAMERA**

**TABLET PC**

**DOPPLER  
SENSOR**

**DISTANCE  
SENSOR**

**MAIN  
CONTROL UNIT**

**DEVICE ADVANTAGES**

- microwave sensors installed behind car mask
- possibility of videorecord capturing even further traffic violations or wrong driver behaviour during car driving
