

RAMER 10

Solar Powered

ENERGY SAVING
SOLUTION

SUSTAINABLE SOURCES

- AUTONOMOUS POWER SUPPLY
- ENERGY FROM SOLAR PANELS AND PUBLIC LIGHTING
- COMBINED SOLAR REGULATOR FOR BATTERY CHARGING

MAIN ADVANTAGES

- stationary design of speedometer
- possible installation even in places without permanent energy supply
- backup battery with capacity for 2 to 3 days
- automatic regulator of solar panel
- easy installation
- unmanned, maintenance free operation
- all standard characteristics of traffic speedometers including outputs are secured

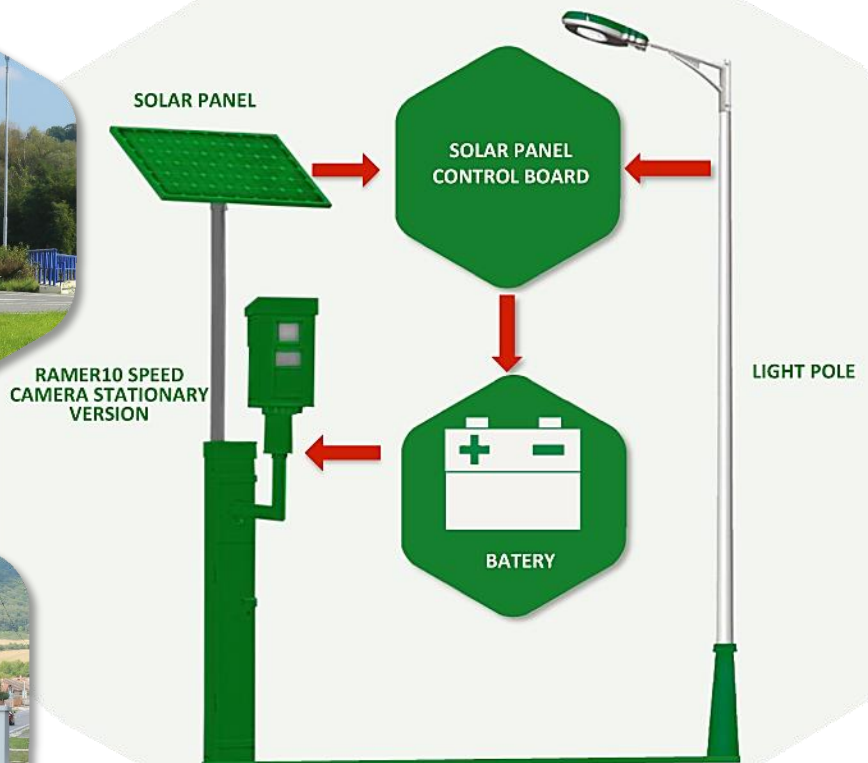

ENVIROMENT
FRIENDLY
